**Future U**  
Shared by krs917 5 minutes ago  
artedmedia.com • Future U is a multipart series on the university of the 21st century. We will be investigating the possible future of the textbook, the technological development of libraries, how tech may change the role of the professor, and the future role of technology in ...

**Information**  
Shared by BongoDev 5 minutes ago  
myresourcecloud.net • Coco is a series of fun resources aimed at teaching children (3-6 years of age) languages: French, English, Polish, German, Spanish and even Chinese are all switchable in this exciting teaching tool, so that the learner has access to a wide range of languages ...

**Foreign Tongues**  
Shared by Yabla Just now  
huffingtonpost.com • What do former House Speaker Newt Gingrich and former Treasury Secretary and Harvard President Larry Summers have in common? The short answer: other than Ph.D.s and professorships, not very much. But it turns out that they both share an unfortunate skepticism about the importance in American education of studying foreign languages.  
In the case of Secretary Summers, his doubts appeared in a January 2012 ...

**Study: Feminizing STEM Role Models Turns Off Girls - Inside School Research - Education...**  
Shared by SchoolHR 5 minutes ago  
blogs.edweek.org • The push to promote more "feminine" role models for science, technology, engineering and math fields—think computer engineer Barbie with her pink laptop—may backfire with middle school girls, according to a new study published in *Social Psychological and Personality Science*.

**Information**  
Shared by CeeJay\_Royalty Just now  
myresourcecloud.net • We are currently developing a large number of resources based upon world wide events in ...
